

QUALITY ASSURANCE SERVICES

GLOBAL LEADERS IN PROVIDING QUALITY CONTROL & SYSTEMS SUPPORT

Stratosphere Quality Assurance Services will allow manufacturers and suppliers to focus on core services, while reducing both time of project delivery and overall cost of quality.

SUPPLIER QUALITY AUDITS & ASSESSMENTS

- Stratosphere Quality can develop customizable program and team in conjunction with customer's established supplier quality goals.
- Supplier audits may be utilized to address most critical and impactful related quality issues and suppliers for customer or upcoming launch risk avoidance.
- Customers utilizing contract audit support to off-set loss of experienced personnel with early buyouts and balancing contract resource as needed vs new full-time hires.
- Stratosphere Quality audit program can aid in turning around backlog of supplier audits in conjunction with customer's own Auditors or simply free up in plant resources.
- Increase visibility with primary issues in plant to drive down scrap costs and reduce possible downtime related to supplier issues.

CONTRACT SUPPORT

- Stratosphere Quality provides technical recruiting services for staffing placement of professional resources within your manufacturing facilities.
- Qualified Technicians provide inspection & layout support for First Article (FAI) or PPAP inspection support, as well as receiving & inspection services..
- Provides Quality Engineering support including new product safe launch support, validation consulting, contract Quality Stop Gap support, and Quality Systems Auditing.
- Through use of Quality Technicians or Metrology partners, we provide metrology/dimensional inspection support through CMM, Laser, Vision Systems, etc. as needed.

QUALITY REPRESENTATION

- Stratosphere Quality provides tiered OEM suppliers a dedicated on-site representative.
- Provides fast-response teams to manage supplier containment turnaround on-site.
- If needed, provides pick-up/shipping RMA/NC parts back to suppliers for improved turnaround time – where an on-site rep may not be allowed.

ABOUT US

Stratosphere Quality is an official provider of Quality Control, Quality Assurance, and Quality Systems development support, including sorting and rework services for several manufacturers.

Our rapid mobilization capabilities, along with our proven project management methodology, allow us to continue to provide clients with assurance in identifying and containing non-conforming parts. Our team works in staged designated areas within the manufacturing environment with consistent workflow processes across shifts and projects.

Utilization of technology allows for project managers and plant representatives to see real-time data for quality alerts, verification of scans, and customizable reports, so that clients can be confident in the outcome.

ENHANCED PARTNERSHIP

Stratosphere Quality places highly capable, trained, and experienced teams on quality assurance / systems projects for manufacturers across the globe. Refined project management, best practices in quality assurance / systems development, and quality audits are among the reasons our clients continue to think of Stratosphere Quality as the leader in QA/QC services. We understand objectives, unique circumstances, and critical issues that affect not only production, but business. Our objective is to stand alongside our clients to effectively solve quality issues, while minimizing operational disruptions and costly downtime.
