

# ENVIRONMENTAL POLICY

---

Stratosphere Quality recognizes that we should operate our business in an environmentally responsible manner. We will strive to reduce, minimize and conserve our impact on the environment as much as possible.

In support of this effort our teams will:

- Prevent pollution to improve and reduce the environmental impacts of our activities where feasible
- Promote employee awareness on environmental concerns
- Reduce and minimize use or waste of paper and packaging as much as possible
- Favor environmentally friendly and efficient products where possible
- Strive to reduce the amount of energy used as much as possible
- Consider and encourage recycling as a part of our processes
- Minimize travel by promoting the use of alternatives such as e-mail or video/phone conferencing when feasible
- Understand and comply with our customers' environmental requirements when we are working in their facilities
